

CISRS CERTIFIED · CPD APPROVED

Training That Builds Safely.

On-site scaffolding training delivered to your team — anywhere in the UK, Europe, or worldwide. Certificates valid for five years.

ABOUT OUR TRAINING

Engineering Success Solutions.

Scaffst delivers internationally-recognised CISRS scaffolding training on your site, with your team, on your schedule. Every course is CPD approved and certified to the same UK gold standard our inspectors use on-site.

01

CISRS Certified — UK Gold Standard

Construction Industry Scaffolders Record Scheme certificates produced in the UK and recognised internationally. Five-year validity from the date of issue.

02

On-Site Delivery — We Come To You

No travel, no time off the project. Silay travels to your site anywhere in the UK, Europe, or worldwide. Your team trains where they already work.

03

CPD Approved Continuing Education

Both core courses are CPD approved, contributing to your team's continuing professional development records and meeting client and insurer requirements.

04

International Standards — Practical Application

British, European, US and local standards covered alongside hands-on practical assessment. Theory and practice, in your context.
